

WHEN YOU FINALLY GET SERIOUS ABOUT K9 PERFORMANCE

I created the original K9 sports food 25 years ago, and have innovated virtually every major animal & human innovation since. There are copies of my old products, but I believe new K9 SUPERFUEL makes them overpriced and obsolete. K9 SUPERFUEL is the most powerful product of its kind today...or ever. And while it boosts muscular performance, health & immunity, K9 SUPERFUEL also **saves money** by including what others lack. When you finally **get serious about unlocking hidden genetic potential** in your dog, get K9 SUPERFUEL. **Bob Fritz**
