NET WT. 4.27 LBS (1,939g)

Saves money, better value

All-in-one powerhouse loaded with today's most effective (and many hard-to-find) nutrients. Save tons of time & money versus buying piece by piece.

Superior taste, smell, mixability

New methods make it taste & smell so good, you'll want to eat it yourself. Go ahead, it's human grade. Mixes instantly, too, even in cold weather.

K9 Oxygen Superhighway™

Nobel prize-winning vasodilator increases flow of oxygen, nutrients & fuel to muscles. You won't find this in other formulas.

Strength Fuel™, Endurance Fuel™

Helps replicate the explosive power & stamina of genetically elite canines, even in extreme conditions!

Zero Trans Fat

These killer fats lower testosterone, decrease litter size, promote joint pain & inflammation. THIS formula eliminates them! Others haven't!

Lower Glycemic Index

Tames blood sugar highs & lows for consistent energy—while it promotes leanness & longevity. Don't bother looking for this in other supplements.

Natural Hormone Balancer

Counteracts feminizing, body fattening effect of hormone-like substances prevalent in the environment & many commercial foods.

K9 Joint Power™

Chondrogenic factors protect, repair cartilage & help reduce inflammation for jumpin' joint power you'll have to see to believe!

Colostrum-Micellar Casein

Isolated growth factor from mother's milk boosts muscle performance, immunity & more—in pups and adults!

L-Glutamine Peptides

Unique molecular structure delivers TWICE the power of old glutamine—to protect muscle, blunt stress hormones, trigger protein synthesis, supercharge stored energy & more!

Lutein, Lycopene, Green Tea & More

Most diverse antioxidant complex of ANY canine formula!

**MADE ONLY WITH
HUMAN GRADE
INGREDIENTS**

I created the original K9 sports food over 20 years ago and have innovated leading animal and human performance products ever since. There are copies of my old products, but new SUPERFUEL makes them overpriced and obsolete. SUPERFUEL is the most powerful product of its kind ever. And while it boosts health, immunity & performance, SUPERFUEL also saves money by including what others lack!
