### What is K9 SUPERFUEL?

100% natural K9 SUPERFUEL is the ultimate K9 Performance and bodybuilding gainer. K9 SUPERFUEL enables dogs to perform better and gain lean muscle. By reducing fatigue with lactic acid buffers, and increased oxygen utilization via L-Citrulline, K9 SUPERFUEL helps dogs avoid injury caused by being tired.

### What will K9 SUPERFUEL do for my dog?

K9 SUPERFUEL also helps gain lean, healthy muscle. K9 SUPERFUEL is perfect for dogs needing to gain functional weight-without getting fat. Because it is predigested, K9 SUPERFUEL is gentle for even the most stressed dogs.

### What results will I see with K9 SUPERFUEL?

**K9 PERFORMANCE** (Agility, Shutzhund, etc): Enhance K9 Performance, Reduce fatigue, Boost recovery, Lower chance of injury, Strengthen joints, Sharpen mental concentration and focus, Buffer lactic acid.

**SHOW, INJURY & ILLNESS:** Solid weight gain, Convert calories into functional muscle, Protect lean muscle, Reverse muscle breakdown, Accelerate recovery and recuperation, Optimize metabolism, Lower stress hormones.

### Does K9 SUPERFUEL contain drugs?

K9 SUPERFUEL is 100% natural and will not test positive. It contains whole foods, extracts and nutraceuticals. Ingredients in K9 SUPERFUEL mimic the benefits of some drugs but without side effects. MSM, for example, helps joint pain and inflammation. Creatine helps improve performance and recovery as much as dangerous steroids.

### Is K9 SUPERFUEL only for canine athletes?

K9 SUPERFUEL benefits any stressed dog. Although it's great for bodybuilding and K9 Performance, it's also dynamite for traveling, show, recovering from illness, etc.

### How do I feed K9 SUPERFUEL?

Feed 1-2 scoops per 25 lbs of weight in 1-2 cups water: At meals and/or 30 minutes after workouts. (this is when 83% of all recovery takes place)

### Do dogs like to eat K9 SUPERFUEL?

Yes. Dogs love its smell and taste. With real meat proteins, dogs go after it big time. The problem is keeping them away from K9 SUPERFUEL!
