

A New Magazine

Aimed at bringing **greater health, happiness, excitement & longevity** to your lives together

If you've ever wondered how to get your pet (and yourself) in great shape, which supplements are worth the money, what you need to do to help your canine performer win (sled dog or show dog), what you can do to beat fleas, rejuvenate joints, or ditch that itch — or about dozens of hot topics — then you'll love every informative, inspirational page of new **People & Pets**.

With **People & Pets**, you'll be the first to know about new gear, gadgets, fun things you can do with your pet, and special "functional" foods. Like Animal Naturals' new line, proven in real world competition to improve a pet's performance. At work or play, they can help your pet, too.

In Every Issue:
